Date: 7<sup>th</sup> July 2005

### **About myself:**

My name is **abc** and I have finished my Bachelor of Engineering in Instrumentation Technology from JSS Academy of Technical Education, Bangalore, affiliated to Visveswaraiah Technological University in July 2005.

### **Here chart out your academic achievements in chronological order :**

- ⌘ Completed XIIth grade from La Martiniere for Boys, Calcutta with 80% in ISC.
- ⌘ Completed Undergraduate studies in B.E. at JSS Academy of Technical Education, Bangalore with 75.18%
- ⌘ Got placed in Satyam Computers Services Ltd. Through campus recruitment and have been offered a salary of Rs 2,27,052.00 p.a.
- ⌘ Applied to selective US universities for course in MS (electrical, electronics and communication)
- ⌘ Took GRE. Scores: 1280 Verbal: 480 Quant: 800, AWM – 4.5
- ⌘ Took TOEFL. Scores: 263, essay – 5.5

### **Why This Field**

Though I had several interests I had no problem in choosing my career because right from the very beginning I was mainly interested in Signal Processing and communication. It is the core of telecommunication industry and my undergraduate course in instrumentation had fanned my interest as we had laboratory assessment in Digital Signal Processing, not to mention about the allied subjects.

Keeping this in mind I decided to apply for universities that best suited my area of specialization.

### **About Univesities**

- ⌘ Received admission offer from first-**San Diego State University** and Illinois Institute of Technology has deferred the processing of my admit to spring 2005.
- ⌘ University of California - San Diego, Purdue University, Arizona State University and University of Central Florida have sent me rejects because in most cases, my GRE score had reached late from ETS.
- ⌘ My selection of universities was based on the course they were offering, faculty specialization and profile and cost.

### **Promise Of Return:**

American universities emphasize more on practical learning and have the best facilities for advanced studies. Universities in America are globally recognized for innovative and research oriented curriculum. Also there are vast no of universities in America compared to any other country in the world. The cosmopolitan environment in American Universities will provide me with great international exposure to different ideas and the best ways to plan and execute my ideas. I will definitely be able to learn from the best in the world.

On returning to India I plan to work as design specialist in Digital Signal Processing as applied to industries like communication and image processing, which is in high demand and also promises greater returns in India. I will have an edge over the competition by the fact that I have the best knowledge, from one of the best country, leading in the field of Digital Signal Processing.

**Financial Summary :**

Sponsors name : Mr. father and Mrs. mother

... Immovable property worth Rs. 30,33,700.00

...Movable assets worth Rs. 50,13,456.75

... bank accounts worth Rs. 87,381.00

... **and I am their only daughter and heir.**
